HELPING OTHERS

ABOUT ME

Passionate Software Engineer with expertise in Angular, TypeScript, and modern front-end tools like Tailwind, Bootstrap, and responsive design. Experienced in building scalable web apps, integrating RESTful APIs, and contributing to full-stack projects with C#, Node.js, and SQL. Familiar with DevOps pipelines using Jenkins and Docker. Committed to clean code, continuous learning, and collaborative development.

SINGULAR LOGIC S.A

Apr 2023 - Now

COGNITY A.E

Feb 2022 - Apr 2023

EDUCATION

UNI OF WEST ATTICA

Oct 2015 - Apr 2021

CERTIFICATIONS

UDEMY

Dec 2024 - Mar 2025

BITDEGREE

Oct 2021 - Jun 2022

FREECODECAMP

Jan 2022 - May 2022

REGENERATION

Oct 2021 - Dec 2021

CODE + CREATE (GFOSS)

Mar 2020 - May 2020

ANGULAR DEVELOPER / DEVOPS ENGINEER

Developed scalable Angular applications across ecommerce, government, ERP, and fuel management sectors. Led upgrade of EuroElections 2024 system from Angular 7 to 18 using Angular Signals. Built reusable frontends with custom components and API integration. Improved ERP UI/UX and modernized fuel systems with NgRx, responsive design, and CRM migration. Applied Jenkins and Docker for efficient CI/CD.

ANGULAR DEVELOPER / TEAM LEADER

Refactored legacy ASPX banking system to modern Angular UI, enhancing maintainability and UX. Collaborated with stakeholders and backend teams for smooth integration. Led Angular-based insurance sales platform development and maintenance. Conducted code reviews and mentored junior developers. Designed intuitive interfaces for policy comparison and purchasing.

MSC ELECTRICAL AND ELECTRONICS ENGINEERING (EQF 7)

Diploma Thesis: "Develop a web app for online project management".
